- The E-strings are available with ball- or loop-end.

Sizes

- All Passione Solo strings are available in 4/4.

Special Features

The length of colored silk at the peg end of the Passione Solo G-string is different than the length of the A- and D- strings. This has been done intentionally and is part of the construction of the G-string. The special length of the G-string's color winding at the peg end prevents the string from breaking in the peg box. At the latest after two to three days the stretching process will be finalized. As a result the silk winding will no longer reach over the nut. We have made numerous tests with this special G on various violins all differing in size and the string has always fitted. On some violins it takes longer, with other violins the string even fits from the beginning.

DETAILS

The introduction of the violin string set Passione underlines our conviction that young violinists enthusiastically taken up our patented modern violin gut-core string set. The feedback about Passione available. This focus allows musicians an effortless presence in the orchestra and the solo violin develops a noble projection within the orchestra (e.g. violin concerts of Brahms, Tschaikowsky,

emphasizes its tuning stability, its effortless response and its quick playability. Violinists have also confirmed the complexity of sound and wide range of colors.
